## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1 – Figures 1(a) and 1(b)

Species 2 – Figures 4 – 7

Species 3 – Figures 8 – 9

Species 4 – Figure 10

Species 5 – Figure 11

Species 6 – Figure 12

Species 7 – Figure 13

Species 8 – Figure 17

Species 9 – Figure 22

Species 10 – Figures 23 – 24

Species 11 – Figures 25 – 26

Species 12 – Figures 27 – 28

Species 13 – Figure 29

Additionally, this application contains claims directed to the following patentably distinct subspecies of the claimed invention:

Subspecies 1 – Figures 11 and 20 – 21

Subspecies 2 – Figures 12 and 19

Further, this application contains claims directed to the following patentably distinct subspecies of the claimed invention:

Subspecies A – Figures 14 – 15

Subspecies B – Figure 16

Subspecies C – Figure 18

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

Due to the complexity of the requirement, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
